TOPOS RESIDENCES

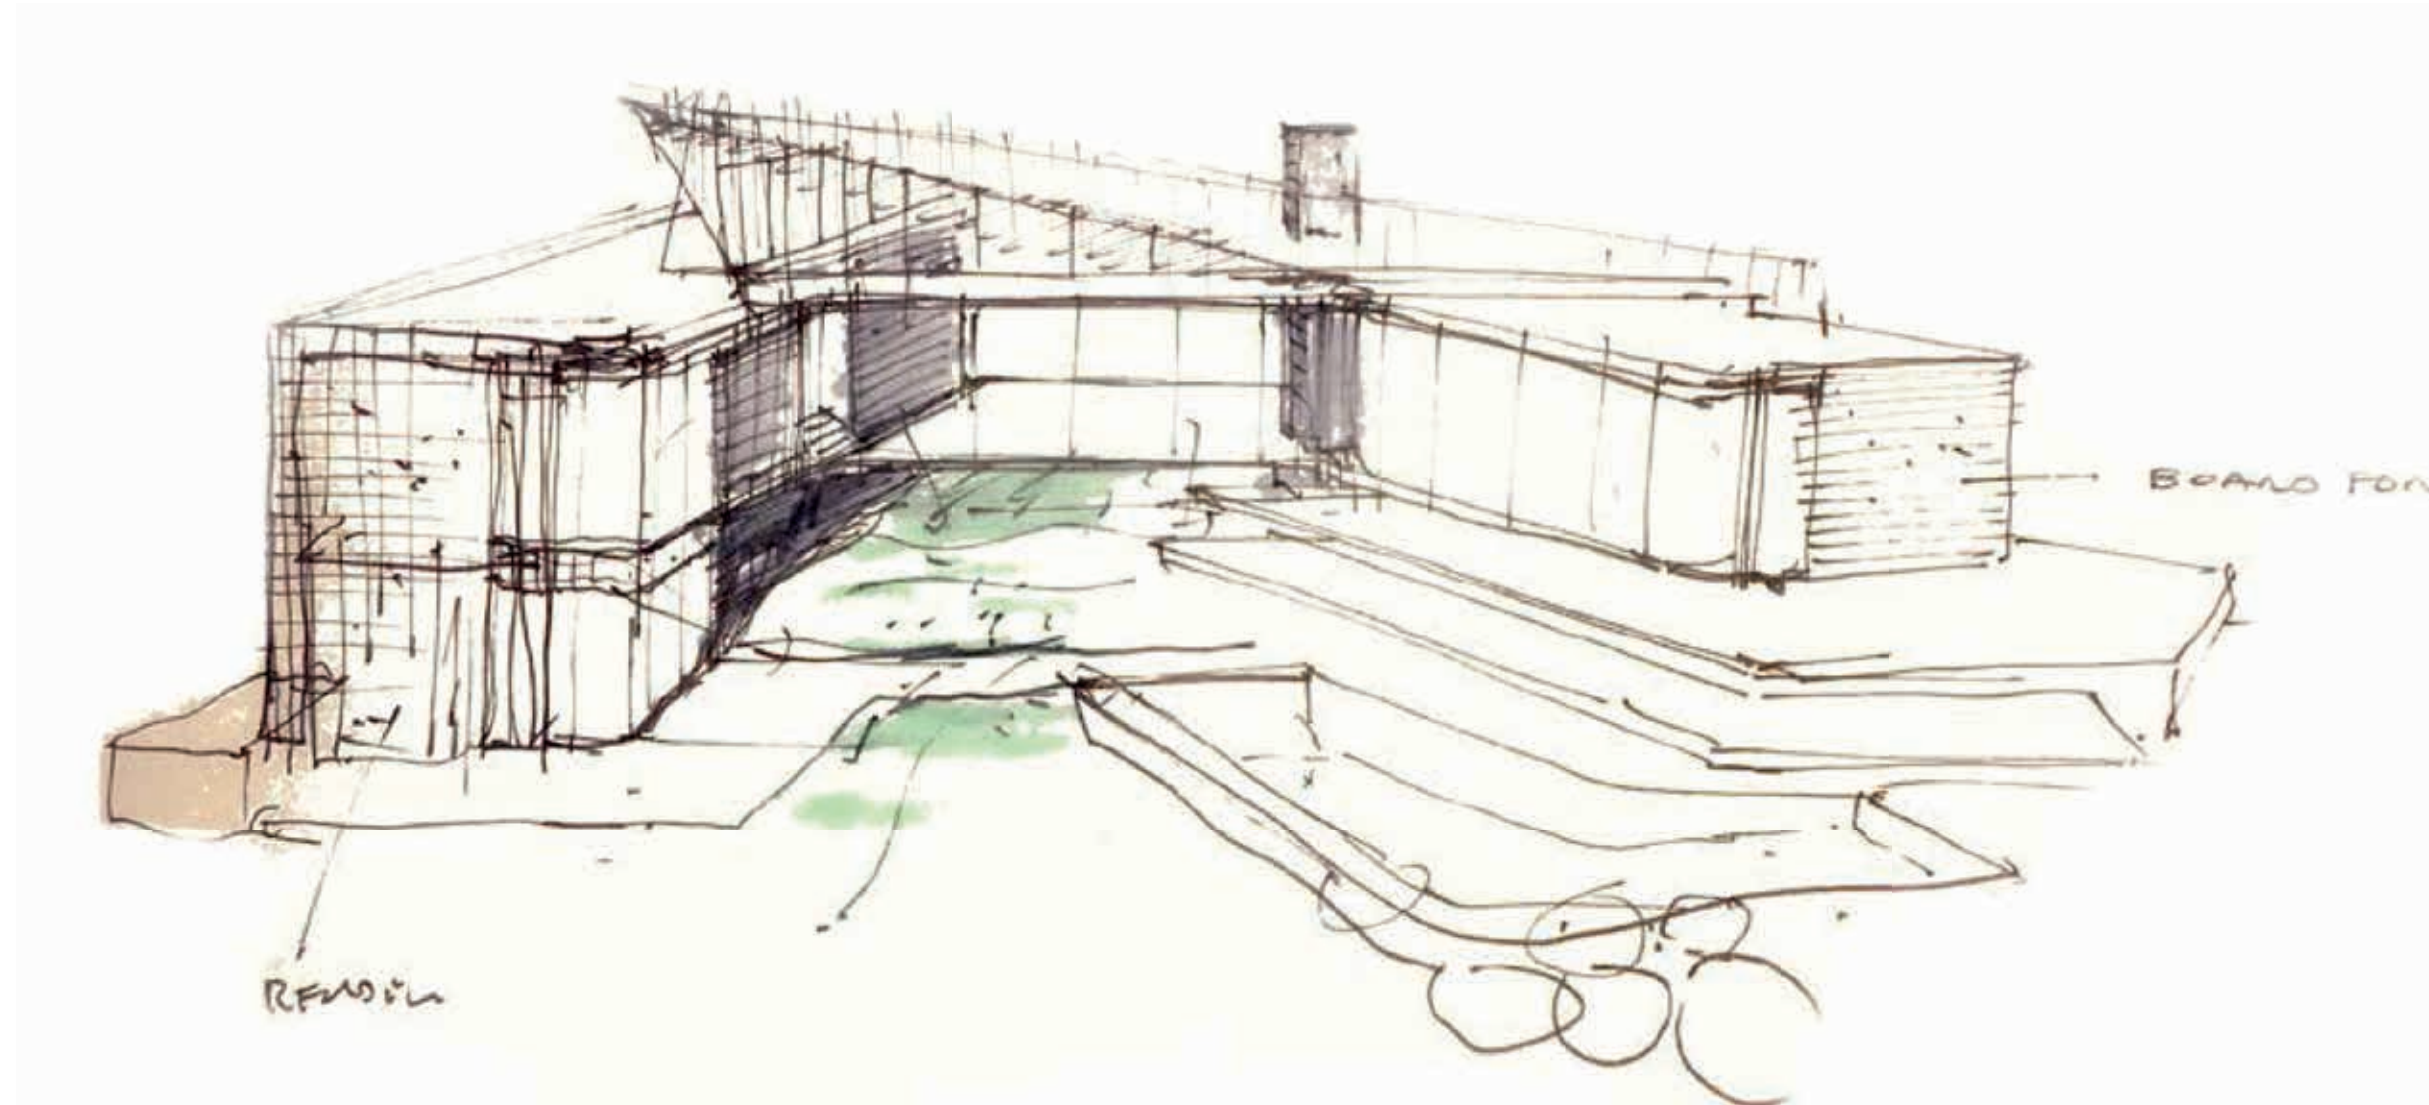

AT ONE WITH THE LANDSCAPE

A new equilibrium between outside and in. Topos Residences offers a new way of living, expanding the horizons of the Minthis design philosophy. Imagined with the same approach to modern luxury as our Minthis Collection, each Topos Residences residence uses position, material and architecture to embody a unique and rarefied place amongst nature. A living environment with the modern luxuries and comfort to relax completely, embedded as closely as possible within the diverse and beautiful ecosystem of this protected Cypriot landscape. In this place, the real luxury is nature.

YOUR OWN PRIVATE RETREAT

The inspiration behind Topos Residences is the very environment in which it sits. The Minthis panoramas offer true escapism, where time can be found and savoured. Topos Residences celebrates this spirit in the character and style of each villa: not properties but vantage points, from which to pause and appreciate the unspoilt and protected surroundings.

DESIGN PRINCIPLES

TOPOS RESIDENCES ENRICHES EVERYDAY LIVING BY REMOVING
THE BARRIERS TO NATURE

Topos Residences was conceived by world-renowned architects Woods Bagot. An extension to the Property Collection, it shares the same DNA - with one-of-a-kind, contemporary homes that sit in harmony with extraordinary surroundings. This design ethos is explored even further for Topos Residences - they punctuate the landscape as if projected directly into it, engaging with all the elements and the senses: air, light, sound, texture and space work together to create a place of tranquillity, experience and connection from nature to the soul.

“Creating a personal connection with the environment is what Topos Residences is all about; the embodiment of living in the hills, surrounded by nature.”

Demetris Ashiotis, Executive Director

THE ARCHITECTURAL VARIATION AT MINTHIS CREATES LAYERS AND TEXTURES THAT REFLECT THE UNDULATING BEAUTY OF ITS SURROUNDINGS.

Topos Residences are an interpretation of the Minthis design philosophy, they are perfectly balanced and defined to sit within the wider resort in the rolling Paphos hills. Materials and forms are thoughtfully crafted and curated to blend together, offering unique properties that feel part of one story.

INTERIOR MATERIALS AND FINISHES

The materials inside provide warmth and tactility, evoking a sense of homeliness and prioritising space for living. Whether the desire is for socialising or relaxation, Topos Residences offers dynamic and sensorial environments. Suntrap courtyards, shaded verandas, sliding glass walls and garden terraces all create the versatility to live both inside and outside depending on the time of day, or the season.

FIVE MILLION SQUARE METRES OF NATURAL BEAUTY

Minthis is a special place. There are mountain views and spectacular panoramas, but there are also sights that allow you to focus and pause on a smaller scale – the valleys, trees, rock formations and wildflowers, all unique to this landscape. Topos Residences are about designing a place for interaction with all of this – creating not just houses but luxurious perches from which to take in the beauty and find peace and serenity amongst nature.

“In all things of nature there is something of the marvellous”.

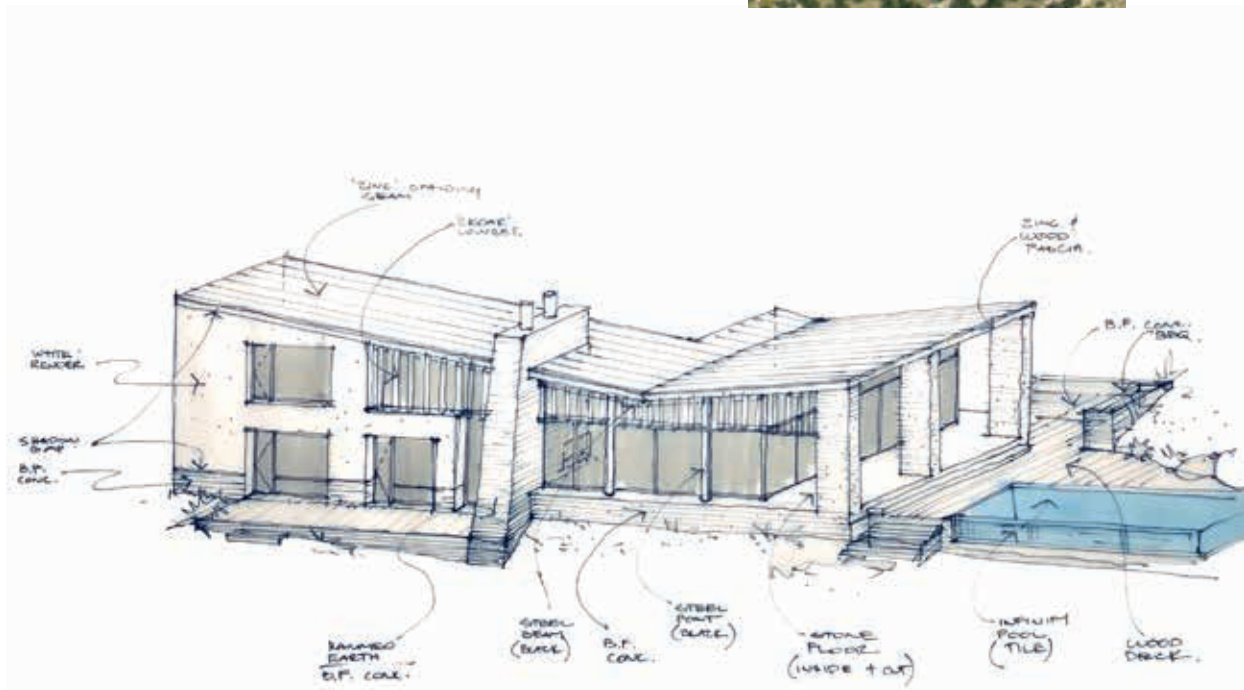

Aristotle

ROB STEUL

"We have built on the Minthis philosophy of celebrating escapism through the natural surroundings. Topos Residences homes literally project into and engage with the landscape, allowing it to permeate all aspects of the house to the point where one would be challenged to define what is 'outside' and what is 'inside'.

What are the unique features of a Topos Residence?

R.S. We've created this family of designs to make the most of their mountain side setting and literally drawing the air and landscape through the living spaces. In each design, the living/dining/kitchen areas are on the same level as the terraces and verandas along with the pool creating seamless flow between all of these spaces.

Topos Residences are also very warm and inviting. Wood ceilings, stone fireplaces and warm, natural materials are used throughout to give the unique blend of grand spaces an intimate feel.

The Minthis philosophy is to celebrate the landscape and offer true escapism, how is this philosophy reflected in the designs?

R.S. I think we have built on this philosophy and gone even further with the Topos designs. They literally project into the landscape and engage with it. The landscape and the fresh clean mountain air runs (figuratively) through the house to the point where one would be challenged to define what is “outside” and what is “inside”.

What was the inspiration behind the Topos collection?

R.S. The inspiration came directly from my own interaction with the site and the special place that Minthis is. Topos was about creating a home which allowed interaction with the landscape. The residences become a vantage point from which to live in, appreciate and be inspired by this diverse and beautiful ecosystem.

What aspects of traditional Mediterranean living have you brought into the design?

R.S. Although totally modern in form and natural in spatial flow, the residences are in the end luxury homes with every conceivable comfort. Sun trap courtyards, covered verandas, sliding glass walls and garden terraces all create multiple options to live both inside and outside depending on time of day and the season. The fireplace hearth is at the heart of the home and anchors the building to the landscape – literally bringing the Minthis stone within the interior space.

What will be the experience living in a Topos Residence

R.S. Living in a Topos Residence will be the epitome of the most luxurious form of outdoor living. Think: expedition, sleeping under the stars, gazing into the landscape and relaxing to the gentle sound of the breeze rustling the wildflowers and the nearby birdsong. Topos allows the ability to live in nature while being held in the lap of luxury.... luxury to an all new level, and a resort feel in the mountains.
